Karakamsha :Gemini

General Predictions

Character

You are clever than other people. This is due to the fact that you can learn things quickly and without much effort.

You have a gift for making other people happy. You know how to comfort those who are troubled and you know how to make them pleased with themselves. This is a rare gift and there are not enough people like you in the world.

You are a person who wants to know the why and where of everything. Until you are satisfied on these points, you refrain from acting. Consequently, sometimes you miss a good deal, and some people look upon you as a procrastinator.

Your greatest weakness lies in the way you treat others. You cannot tolerate inefficiency and you are apt to consider those who do not see eye to eye with you as being hopelessly beneath contempt. It would not be difficult for you to cultivate a more charitable and tolerant view towards those who are likely to earn your disapproval. At any rate, it is well worth trying.

Happiness & Fulfilment

You are brave and ambitious. Unafraid to take chances and enact their plans, you are extremely active individual who stimulates others into action.

A busy person who is always doing something constructively, you rarely misuse energy. If what you are doing with your life is unfulfilling, you are unafraid to change it.

Life Style

You tend to be miserable in many ways because you are afraid to tell people how you feel about them. Thus, you build up hostility. Start immediately to say what is on your mind and you will begin to find meaningful relationships with others.

General Predictions

Career

You take all of your responsibilities quite seriously. As a result you have much ambition and will be sought after by your superiors to take on additional responsibilities. Therefore, you should direct your goals toward career positions in an executive capacity.

Occupation

You have an excellent memory, excellent health, and plenty of force in your character. All this makes it clear that you were born to command. It hardly matters what the particular line of occupation is, You should do well in it. But where you will chafe is in passing up from junior posts to the executive positions. If promotion is slow, you may become despondent and even spoil your chances by plain speaking. Once you climb up the ladder and reach a good height, your abilities will establish you firmly. From this, it is seen that you will fare better in the higher ranks of service than in the lower. Clearly, it will be wise for you to go cautiously while getting your footing.

Health

You put a high price on your comforts. As an outcome of this trait, you are something of a gourmet and enjoy your food. In fact, you do not eat to live but, rather, live to eat. It is not surprising, then, to find that your digestive apparatus will be the portion of your body which will give you the most concern. Do not neglect such ailments as indigestion and when they come, do not try to cure them by means of drugs. Take moderate exercise such as walking and mild physical jerks. Breathe plenty of fresh air, put yourself on a rational diet and eat fruit. However, if it prolongs you must visit a doctor. After fifty years of age, beware of inertia. You will be apt to give up this and that, and grow into an individual who loses his hold on life. Keep up your interest in things, develop your hobbies and remember that nobody can grow old if they mix with younger people than themselves.

General Predictions

Hobbies

Vigorous pastimes attract you most and they do you the most good. A really fast game like football, tennis, etc, is a capital outlet for your energies and you will be all the better for it. You will like walking when middle-age is reached, but you will think more of a fourteen than a four mile walk. On holidays, you will not want to sit the beach and wait for the next meal, with only a newspaper to amuse you. The most distant hills will beckon to you, and you will want to know what they look like close to.
